

學校及設施興建 School and Facilities Construction

學校及設施興建旨在通過資助貧困山區的危校重建和設備配套，為當地學生提供一個安全實用的學習環境。目前此組已在雲南、甘肅、貴州、四川、江西等多地開展項目，建設教學樓、綜合樓、學生宿舍、學生食堂，以及操場、圖書館、課桌椅、體育器材等配套設施。在項目執行過程中，小組通過參與建築工程監管、職員不斷跟進、在重要工程階段現場考察、直接向受助方撥款等工作方法，確保項目合規進行及善款恰當使用。今年共重建10所小學，資助6項學校設施及配套。

Sowers Action has been subsidizing school reconstruction and ancillary facilities establishment with a view to providing a safe and suitable environment for students in mountainous regions of China. Over the years, the work group has started their projects in Yunnan, Gansu, Guizhou, Sichuan and Jiangxi provinces. The construction projects include the building of academic buildings, integrated complex, student dormitories and canteens, while the ancillary facilities include playgrounds, libraries, desks and chairs and sport facilities, etc. During the projects, the work groups ensure the suitable use of donations with up-to-standard constructions through participating in the monitoring of construction process, on site assessment at the critical stage and subsidize the needs directly. This year, we have rebuilt 10 primary schools, and subsidized 6 schools ancillary facilities.
